EARTHQUAKE PREPAREDNESS CHECKLIST (EPC) *

Health & Safety Code 1596.876 requires an Earthquake Preparedness Checklist be included as an attachment to the Emergency Disaster Plan (LIC 610, LIC 610A and 610A (SP)) and be made accessible to the public. This form is intended to meet this requirement.

<u>A.</u>	A. ELIMINATE POTENTIAL HAZARDS IN CLASSROOMS AND THROUGHOUT THE SITE:	
	Bolt bookcases in high-traffic areas securely to wall studs.	Assess and determine possible escape routes.
	Move heavy books and items from high to low shelves.	☐ Enlist parent and community resource assistance in securing emergency supplies or safeguarding the child
	Secure and latch filling cabinets.	care site:
	Secure cabinets in high traffic areas with child safety latches.	Store a 3-day supply of nonperishable food (including juice, canned food items, snacks, and infant formula).
	Secure aquariums, computers, typewriters, TV/VCR equipment to surfaces (e.g., by using Velcro tabs).	Store a 3-day supply of water and juice.
	Make provisions for securing rolling portable items such as TV/VCRs, pianos and refrigerators.	☐ Store food and water in an accessible location, such as portable plastic storage containers.
	Move children's activities and play areas away from windows, or protect windows with blinds or adhesive plastic	Store other emergency supplies such as flashlights, a radio with extra batteries, heavy gloves, trash bags, and tools.
	sheeting.	☐ Maintain a complete, up-to-date listing of children, emergency numbers, and contact people for each class-
B	B. ESTABLISH A COORDINATED RESPONSE PLAN INVOLVING ALL OF THE FOLLOWING:	
	ILDREN:	PARENTS:
